The Licensor entitles Licensee to access and use the Licensed Materials, and to provide the Licensed Materials to Participating Institutions and their Authorized Users (which are defined in Section IV below) of the Participating Institutions (which are listed in the Appendix B) in accordance with the terms of this Agreement.
4. Ownership of Intellectual Property. Nothing in this Agreement shall be interpreted to transfer ownership of any copyright, trademarks or service marks from the Licensor or its suppliers to the Licensee or Authorized Users.

II. Delivery & Access

1. Licensor will provide the Licensed Materials to the Licensee and to the Participating

Institutions in the following manner:

1.1. Network Access. The Licensed Materials will be stored at one or more Licensor's locations in digital form accessible by telecommunication links between such locations and authorized locations of Licensee and Participating Institutions.

III. Fees

1. Fees and Payment. Licensee shall pay Licensor for the Licensed Materials pursuant to the terms set forth in Appendix A. All Fees are due and payable by the Licensee by 30 April of the respective calendar year, unless otherwise stipulated in Appendix A.
2. Incomplete Payment. The Licensee may cover the invoice partially if a Participating Institution did not provide its financial contribution in time. In the event of such incomplete payment, Licensee will notify Licensor of the intended difference no less than ten (10) days prior to the due date. In such case of the incomplete payment the Licensee shall not itself be considered in delay with the payment.

In case any Participating Institution shall lose its status as Participating Institution or shall lose its right on sublicense or the termination of access of Participating institution or in case any new scientific (or similar) institution shall reveal its intent to become a Participating Institution Licensor shall enter into negotiation with Licensee to amend this Agreement and to renegotiate the amount of Fees.

IV. Authorized Use of Licensed materials

1. Authorized Users. "Authorized Users" are:
 - 1.1. Persons Affiliated with the Licensee and the Participating Institutions. Full and part time employees and self-employed persons (including faculty, staff, and visiting or affiliated researchers) of Licensee and Participating Institutions and students of Licensee and Participating Institutions, and registered users in case of public or research libraries, regardless of the physical location of such persons. 2. Access by and Authentication of Authorized Users. Authorized Users of the Licensee and the Participating Institutions shall be granted access to the Licensed Materials pursuant to the following:
 - 2.1. IP Addresses. Authorized Users shall be identified and authenticated by the use of Internet Protocol ("IP") addresses provided by Licensee to Licensor. The use of proxy

servers is authorized as long as any proxy server IP addresses provided limit remote or off-campus access to Authorized Users. Authorized IP Addresses are listed in Appendix C. An updated list will be sent to Licensor on an annual or as needed basis without the need to amend this Agreement. Alternatively, if Licensor is utilizing its own and/or third-party system for IP range change notification (such as e.g. IP Registry), then updated list may be sent via such system instead. The Licensor will cooperate with the Participating Institutions in the implementation of new authentication protocols and procedures (such as Shibboleth) as they are developed during the term of this Agreement. The Licensee will, if necessary, provide cooperation to coordinate or facilitate this process but it will not be liable for correct implementation of such authentication protocols and procedures (which remain the full responsibility of the Licensor and the respective Participating Institution).

2.2. Licensor-Administered Authentication. Where Licensor provides alternative methods of access and authentication beyond the Licensee-administered methods described herein, e.g. by allowing users to establish a personal login from an on-campus IP address (thereby enabling access via username and password when logging in to a vendor website) or device authentication, which affiliates the device or application by use of a token, cookie, or vendor-managed proxy prefix, neither Licensee nor any Participating Institution will be responsible or liable for claims of breach or validity of such use. Neither the Licensee nor any of the Participating Institutions shall be responsible or liable for the processing of personally identifiable information (personal data) by the Licensor in this matter.

2.3. Personally Identifiable Information (Personal Data) of Authorized Users. Both the Licensee and the Licensor acknowledge and agree that the Licensee neither transfers nor provides any personally identifiable information (personal data) of the Authorized Users to the Licensor. Access to the Licensed Materials is primarily granted via IP Addresses pursuant to Section IV. 2.1 which prevent any identification of the Authorized User. In case of Licensor-Administered Authentication pursuant to Section IV. 2.2, the Licensor is required to ensure lawful processing of any personally identifiable information (personal data). Notwithstanding the foregoing, the Licensee may share with Licensor the contact details of the Participating Institutions' contact persons or other personal data where the Licensee determines it has a valid legal basis therefor.

3. Authorized Uses. Subject to Section V below, the Licensed Materials may be used under these licensing conditions for purposes of research, education or other non-commercial use as follows:

3.1. Display. Licensee, Participating Institutions and Authorized Users shall have the right to electronically display the Licensed Materials within Licensor's database.

- 3.12. Text and Data Mining. Authorized Users may use Licensor's Data for Research service for the purpose of text and/or data mining. Data for Research is a Licensor program for research activities involving computational analysis rather than for purposes of understanding the intellectual meaning of such content. The Prohibited Uses described in Section V below apply also to uses of Data for Research.

- 3.13. Interlibrary Loan. Using secure electronic, paper, or intermediated means, Licensee and the Participating Institutions at their discretion may fulfill occasional requests from other institutions, a practice commonly called Interlibrary Loan ("ILL"). Licensor agrees that the electronic form of the Licensed Materials may be used as a source for the ILL whereby articles and/or chapters can be printed and these print copies can be delivered via postal mail, fax, or fax-based service to fulfill ILL requests from an academic, research or other non-commercial library. Requests received from for-profit companies may not be honored. ILL through secure electronic transmission, as demonstrated by the ARIEL, is permitted. For the avoidance of doubt, Licensee, the Participating Institutions and Authorized Users may use citation and abstract information in faculty profiling systems, in lists of publications on faculty and institutional web pages, and to create bibliographies, and store a single copy of an individual document being part of the Licensed Materials, including within secure personal bibliographic reference/citation management systems.
- 3.15. Fair Use. Licensee, the Participating Institutions and Authorized Users may make fair use of the Licensed Materials under Section 107 of the U.S. Copyright Act, educational exceptions, or other similar provisions of the copyright laws or other intellectual property right laws in the United States.

In addition to all permitted uses described above, which apply to this content as well, Authorized Users are free to copy, use, and redistribute moreover content in Licensor's database labeled Early Journal Content in part or in whole for non-commercial purposes as long as such Authorized Users acknowledge Licensor as the source of the Early Journal content by stating "Courtesy of JSTOR". Furthermore, if content is labeled Open Access it may be subject to different terms of use, such as a Creative Commons license, as indicated in the copyright statement for the content.
