SPRINGER NATURE TRANSFORMATIVE AGREEMENTS
Open Access Publishing Services
Introduction to Open Access Publishing Services
OA workflows: More than a platform

Reliable, customizable, and efficient workflow, **reducing costs & admin efforts** for authors and institutions
Open access publishing process

**Submission**

Manuscript is submitted

Submitting author provides e.g. FundRef and ORCID information, article category is assigned

Peer review is conducted in the following

**Editorial Acceptance**

After editorial acceptance, the corresponding author is able to identify themselves as affiliated to a member institution

**Identification**

OA agreement specific eligibility check: in-scope journals, article types

Corresponding author identifies themselves as connected to a member institution

**Verification**

Identified article is sent to the member institution's article approval service accounts for final verification of eligibility

**Publication**

The author can now complete the remainder of the production process and the article is published open access

An OA funding note is added (if applicable)
Author journey after editorial acceptance

Once an article has been editorially accepted, authors will be able to identify themselves as being affiliated with a relevant institution.

Once an author’s eligibility is confirmed by the institution, the article is published open access.

In case of rejection, the author has the option to publish open access with their own funding or publish traditionally non-open access.

To find lists of eligible journals, please visit our Institutional Agreements website:
springernature.com/gp/open-research/institutional-agreements
Author/article identification

After article acceptance, the corresponding author receives an invitation to complete the publication process for the article and the authors are able to identify themselves:

Corresponding author/article identification parameters:
1. Selected institution
2. Email domain recognition
3. IP recognition

A hierarchy is applied to the identification parameters in the order above
Author/article identification

An author identifies themselves by using the following identification parameters:

For example:
1. Selected institution: Northeastern University
2. Email domain recognition: University of Vienna
3. IP recognition: Cairo University

→ ‘Selected institution’ is the strongest parameter. The author is identified as being affiliated with Northeastern University
Author journey after editorial acceptance
Once the article is editorially accepted, the corresponding author receives an invitation to complete the publishing agreement.

Dear Dr. Charles Darwin

Congratulations on the acceptance of your article: The zoology of the voyage of H.M.S. Beagle.

Before we can proceed with the publication of your article in Journal of Research, we first need you to complete the appropriate publishing agreement.

https://foo.bar

With kind regards,

Springer Nature Author Service

If you have any questions, please do not hesitate to contact our Author Service team at ASJournals@springernature.com
Select country

The author is prompted to select their country from a drop down list.
OA information page

Authors are given basic information about publishing their article open access, including the Article Processing Charge (APC)

If authors would like to publish subscription instead, this can be selected later in the process.
OA information page

Authors are asked to select their institution from the dropdown list - if they cannot find their institution it can be manually typed in as well.
Institutional agreements

If an author’s institution has an agreement with Springer Nature to cover the costs of open access publishing, the author will be given information about the agreement in case they are eligible for coverage.
Summary

Authors will be shown a summary of the information they have provided and the agreements they selected, if any of this is incorrect it can be changed at this stage.

If the institution does not have an agreement, or it has run out of funds, the author will be informed here.

- **Institution or University:** University of Edinburgh
  - We do not have an agreement with this institution to pay your APC.
Before generating the publishing agreement, the author is asked to confirm if they are an employee of the US government or the Crown so that the system can provide the appropriate agreement.
For OA articles, the author needs to agree to the publishing agreement or Licence to Publish (LTP)
Confirmation of completed license

The author receives confirmation that the license is completed and has the opportunity to download a copy of the publishing agreement.
Publication I

After the author completes their publication agreement and coverage of the APC has been agreed by the institution or organisation, the article will continue into the final stages of publication where the author can complete their proofs.

Once the author is happy, the article will be published online under the relevant open access license.
The funding highlights that the costs to publish the article open access (the APC) have been fully or partially covered by the agreement.

**Funding**

Open access funding provided by HEAL-Link Greece.
Publication II

After publication, the author will receive an email containing information about the respective OA license.

This email explains:

- General information about the article
- The specific license in use (CC-BY or CC-BY-NC)
- How the author can share their article
- Information on announcing and citing the article
- Extra services SN provides to authors

The email also contains a link to the online version of the published article and an PDF copy.
Support for authors

Authors can find contact details for further support on:

• Open Access System Solution platform
• Author helpdesk
• And on: springernature.com/gp/open-research/institutional-agreements
