Guide For Authors

AIP Publishing has developed a seamless process for authors to make their articles open access (OA) as part of an institutional Read & Publish agreement. Just follow these simple steps.

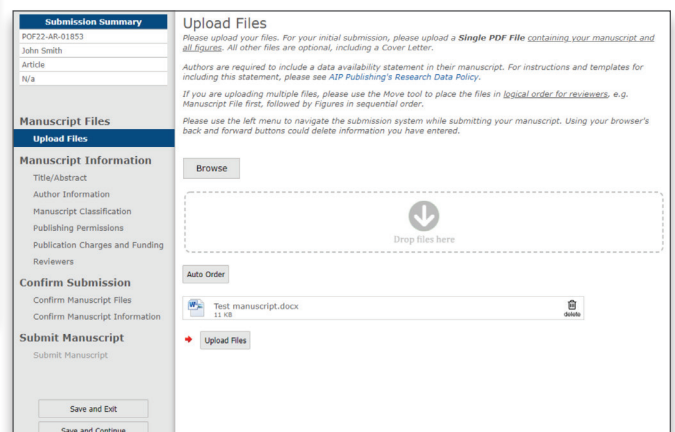

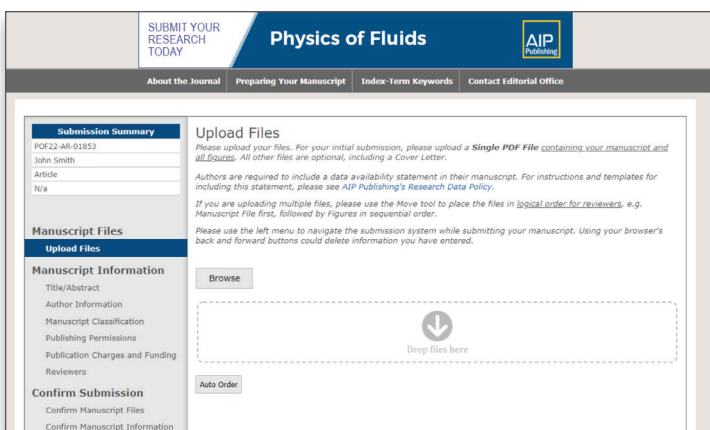

1 After logging in select “submit manuscript.”

2 On the following screen you will need to select the type of manuscript you are submitting (“Article”), then “continue.”

3 Upload your manuscript file(s).

4 Provide some basic information about the article, including title and abstract.

Select File

You may compile your author list in advance of submission using this template file. Use the "Select File" button to upload the completed template file. Please ensure all the fields of the "Author Information" tab have been completed before uploading. You can refer to the tabs of the spreadsheet for help with completing the Title, State/Province, and Country fields. You will have a chance to review which author accounts to include before their information is populated in the Authors section below.

Email Lookup

You may provide a list of email addresses in the text box below to see if there is a matching account for the author. Separate each address by a comma or semicolon. You will have a chance to review and select which author accounts to include before their information is populated in the Authors section below.

When an article is accepted for publication the system will check to verify the status of your institution's Read and Publish agreement.

If the agreement is still active, your institution will be notified to confirm that publication charges should be applied toward the agreement.

You will receive an invoice that shows that the APC has been paid for through their institutional Read and Publish agreement.

If the agreement has been exhausted or expired, you will be contacted with options for how to proceed with publication.
