Appendix E: OA Workflows and Services for Read & Publish customers

The Distributor shall ensure and is liable that all Publisher's ("ACS") obligations outlined in this Appendix shall be fulfilled.

The definitions used in this Appendix E shall have the following meaning for the purpose of this Agreement.:

- Publisher: "ACS"
- Grantee: Licensee
- member institution: Participating Institution
- Access Agreement: Standard License Agreement
- Appendix: this Appendix E

READ AND PUBLISH PROGRAM TERMS AND CONDITIONS

a. Read & Publish Program ("R&P PROGRAM"): Grantee has chosen participation in ACS's *R&P PROGRAM* specifically designed to facilitate the immediate open availability of, as the case may be, Grantee's or its member institutions' ACS published articles at the time of online publication. Availability and use of these articles shall be governed by the terms and conditions of the current version of the Creative Commons CC-BY license. Grantee acknowledges and agrees that the *R&P PROGRAM* is based upon and directly tied to subscription to the ACS Web Editions journals.

Discontinuation of aforesaid subscription(s) or termination of the Access Agreement, for whatever reason, shall terminate this *R&P PROGRAM* arrangement. Capitalized terms not herein defined shall mean the same as in the Access Agreement.

ACS reserves the right to initiate a renegotiation of the *R&P PROGRAM* in case of materially significant changes in the relevant Creative Commons license. In such case Licensee, Distributor and ACS will in good faith renegotiate the conditions of the *R&P PROGRAM* while any changes, modifications and addenda to this Appendix may be done in compliance with the public procurement rules applied to the Grantee.

b. Qualifying Authors: Corresponding authors whose articles are accepted by ACS qualify to have their articles published under the *R&P PROGRAM*, for the respective journal article, if all of the following conditions are met **at the time of**

submission of the manuscript:

- 1) corresponding author must be identified as the individual who is to communicate with ACS throughout the peer review process,
- 2) corresponding author must be an Authorized User as such term is used in the Access Agreement,
- 3) corresponding author must indicate affiliation to Grantee or a member institution by identifying it via a provided dropdown menu during the online manuscript submission process.

It is highly recommended for ease of identification and administrative matters that corresponding authors utilize during the manuscript submission process a current email address extension that is directly associated to the Grantee or the applicable member institution.

Corresponding authors meeting all of the aforementioned criteria are hereinafter referred to as “**Qualifying Authors**”. For clarity, the term corresponding author as used herein means the author handling the manuscript and correspondence during the publication process, who has the authority to act on behalf of all co-authors regarding publication of the manuscript.

c. Tokens: ACS shall grant Grantee as many R&P tokens ("Tokens") as needed for the year(s) 2026-2029, with no cap on the number of Tokens that Grantee may use within those years 2026-2029. When exercising the option for 2030 ACS shall grant Grantee no cap on the number of R&P tokens ("Tokens") for the year(s) 2030, Grantee acknowledges and agrees that Tokens have no redeemable monetary value. For clarity, in the event of *R&P PROGRAM* termination, unused Tokens will not be refunded as a sales credit or otherwise. Tokens must be used for publication of articles within the years for which the Tokens have been granted. Tokens cannot be used for articles accepted before 1.1.2026.

For each article published under the *R&P PROGRAM*, one (1) Token will be considered used. Tokens can be used for publication in all ACS hybrid journals and fully OA journals (ACS Omega, ACS Au family), but cannot be used for eBooks. Articles that are additions or corrections or editorials are also not eligible under the *R&P PROGRAM*. Once the number of Tokens granted has been used, Grantee may purchase additional Tokens at its discretion. Otherwise, ACS policy will revert to direct payment of a fee by the Qualifying Author for publication of such author's article(s) under open access conditions, and such policy shall be in accordance with the ACS AuthorChoice publishing program options. For clarity, Parties acknowledge that a Qualifying Author, despite the availability of the *R&P*

PROGRAM, has the option to direct the ACS to publish the article via ACS's subscription model.

d. Workflow: Grantee understands that the process flow for ACS's *R&P PROGRAM* is systematized through the Copyright Clearance Center (CCC). Accordingly,

4) Grantee will have an *ACS R&P PROGRAM* Token account with the CCC.

5) A Qualifying Author—whose status as a Qualifying Author has been identified at the time of manuscript submission—will be offered the *R&P PROGRAM* option upon ACS's acceptance of the article for publication. If the Qualifying Author selects such option, then the author will be directed to the CCC for the article to be processed as part of the *R&P PROGRAM*.

6) Simultaneously, an email providing notice will be sent to the Grantee's designated administrator who will be required to approve or reject *R&P PROGRAM* publication of the article.

7) Once approved, a Token will be debited from the Grantee's annual balance. Tokens are used on a first ordered, first approved basis.

8) The CCC shall notify Qualifying Authors of the *R&P PROGRAM* publication status of their article(s)

9) The above-designated Creative Commons license will control third-party access to and use of the final published article.

e. Definitive Articles of Record: All ACS articles published under the *R&P PROGRAM* as maintained on the ACS website represent the definitive articles of record. Articles (unless identical copies of the most current definitive articles of record) posted to or displayed by institutional repositories or non-ACS websites are without warranty from ACS of any kind, either expressed or implied, including, but not limited to, warranties of merchantability, fitness for a particular purpose, or non-infringement. In no event shall ACS be liable for any loss or damage arising out of or in connection with the use or performance of information contained in articles posted or displayed on institutional repositories or non-ACS websites.

f. Reports: Token balance and reports tracking articles published under the *R&P PROGRAM* will be available through self-service reporting tools provided in the Grantee's designated administrator's view in the CCC's *ACS R&P PROGRAM* webpages. Information supplied will include Qualifying Author, Grantee, ORCID ID (if supplied by the author), article title, DOI, journal, and Token date.

g. General: ACS is not liable for any article not made open by ACS for an author who does not identify to ACS, during the manuscript submission process, the applicable name of the Grantee or the member institution, or otherwise does not meet at the time of submission the aforementioned criteria of a Qualifying Author[s]
