1. Subject of the Agreement, Content of Licensed Materials; Grant of License

1.1 **Subject of the Agreement.** The subject of this Agreement is to define the conditions of cooperation and the rights and duties of the Parties while providing the Licensed Materials to the Licensee and the Participating Institutions as defined in this Agreement.

1.2 **Licensed Materials.** The materials that are the subject of this Agreement are set forth in Appendix A ("**Licensed Materials**").

1.3 **Grant of License.** The Licensor hereby grants to the Licensee a non-exclusive, non-transferable (except the following sublicenses or other corresponding authorization), system-wide perpetual right, or if perpetual is not objectively possible under applicable law then to the maximum extent permissible under applicable law (regardless whether in form of a license or a sublicense), to use the Licensed Materials pursuant to this Agreement, limited to the territory of the Czech Republic. The Licensee is entitled to grant the sublicenses or any other corresponding authorization to the Participating Institutions in order to provide the Licensed Materials to the Authorized Users (as defined in Section 4.1 of this Agreement) of the Participating Institutions in accordance with the terms of this Agreement.

1.4 **Ownership of Intellectual Property.** Nothing in this Agreement shall be construed, interpreted or understood as transfer of ownership of any copyright, trademarks, service marks or any other intellectual property from the Licensor or its suppliers to the Licensee or the Authorized Users.

2. Delivery & Access

2.1 The Licensor will provide the Licensed Materials to the Licensee and to the Participating Institutions in the following manner:

Network Access. The Licensed Materials will be stored at one or more of the Licensor's locations in digital form accessible by telecommunication links between

such locations and authorized locations of the Licensee and the Participating Institutions.

3. Fees

- 3.1 **Fees and Payment.** The Licensee shall pay the Licensor a fee for the license concerning the Licensed Materials pursuant to the terms set forth in Appendix A based on an invoice issued by the Licensor ("**Fee**"). **All Fees are due and payable by the Licensee by 30 May of the respective calendar year, unless otherwise stipulated in Appendix A.**
- 3.2 **Incomplete Payment.** The Licensee may cover the invoice partially if a Participating Institution did not provide its financial contribution in time. In the event of such incomplete payment, the Licensee will notify the Licensor in writing of the intended difference no less than ten (10) days prior to the due date. In such case the Licensee is not in delay with the payment. The Licensor may suspend the IP addresses of such Participating Institution until the Fee is completely paid.
- 3.3 **Change of number of Participating Institutions listed in Appendix B.** In case any Participating Institution shall lose its status as a Participating Institution or in case any Potential Participating Institution and/or new scientific (or similar) institution shall reveal its intent to become a Participating Institution, the Licensor shall enter into negotiations with the Licensee to amend this Agreement and to correspondingly renegotiate the Fee.

4. Authorized Use of Licensed Materials

- 4.1 **Authorized Users.** "Authorized Users" are:
- (a) **Persons affiliated with the Participating Institutions.** Full and part-time employees (including faculty, staff, and independent contractors) of the Participating Institutions and students of the Participating Institutions, and registered users, regardless of the physical location of such persons. For authorized sites of the Participating Institutions, see Appendix B. Should the Licensee be listed in the Appendix B as the Participating Institution, all provisions concerning the Participating Institution and the Authorized Users shall apply also with respect to the Licensee.
 - (b) **Walk-ins.** Persons not affiliated with the Participating Institutions who are physically present at the Participating Institutions' site(s) ("**Walk-ins**").
- 4.2 **Access by and Authentication of Authorized Users.** Authorized Users of the Participating Institutions shall be granted access to the Licensed Materials pursuant to the following:

- (a) IP Addresses. Authorized Users shall be identified and authenticated by the use of Internet Protocol ("IP") addresses provided by the Licensee to the Licensor. The use of proxy servers by the Licensee or the Participating Institutions is authorized as long as any proxy server IP addresses provided limit remote or off-campus access to the Authorized Users. Authorized IP Addresses are listed in Appendix C. An updated list will be sent to the Licensor on an annual or as-needed basis without the need to amend this Agreement. Alternatively, if the Licensor is utilizing its own and/or third-party system for IP range change notification, then an updated list may be sent via such system instead. The Licensor will cooperate with the Participating Institutions in the implementation of new authentication protocols and procedures (such as Shibboleth) as they are developed during the term of this Agreement. Both the Licensee and the Licensor will provide cooperation to coordinate or facilitate this process but they will not be liable for correct implementation of such authentication protocols and procedures (which remain the full responsibility of the Licensor and the respective Participating Institution).
- (b) Licensor-Administered Authentication. Where the Licensor provides alternative methods of access and authentication beyond the Licensee-administered methods described herein, e.g. by allowing users to establish a personal login from an on-campus IP address (thereby enabling access via username and password when logging in to a website of the Licensor) or device authentication, which affiliates the device or application by use of a token, cookie, or vendor-managed proxy prefix, neither the Licensee nor any Participating Institution will be responsible or liable for claims of breach or validity of such use. Neither the Licensee nor any of the Participating Institutions shall be responsible or liable for the processing of personally identifiable information (personal data) by the Licensor in this matter as this remains its full liability.
- (c) Personally Identifiable Information (Personal Data) of Authorized Users. Both the Licensee and the Licensor together and individually acknowledge and agree that the Licensee neither transfers nor provides any personally identifiable information (personal data) of the Authorized Users to the Licensor. Access to the Licensed Materials is primarily granted via IP Addresses pursuant to Section 4.2(a) of this Agreement which prevent any identification of the Authorized User. In case of the Licensor-Administered Authentication pursuant to Section 4.2(b) of this Agreement, the Licensor is required to ensure lawful processing of any personally identifiable information (personal data). This does not preclude the Licensee to hand over the contact details of the Participating Institutions' contact persons or other personal data where the Licensee has a valid legal basis therefor.

4.3 Authorized Uses. The Participating Institutions and the Authorized Users may make all use of the Licensed Materials as is consistent with the applicable law and with this Agreement, including but not limited to the following licensing conditions ("**Authorized Uses**"). In addition, the Licensed Materials may be used for purposes of research, education or other non-commercial use as particularly follows:

- (a) Display. The Participating Institutions and the Authorized Users shall have the right to electronically display the Licensed Materials.
- (b) Digital Copy. The Participating Institutions and Authorized Users may download and digitally copy a reasonable portion of the Licensed Materials.
- (c) The Participating Institutions and the Authorized Users may use reasonable parts of the Licensed Materials to produce printed teaching materials for use by the Authorized Users within the Participating Institutions' Authorized Sites; these materials are not permitted to be used for re-sale or any other commercial purpose. The Participating Institutions and Authorized Users may use reasonable parts for Learning platforms (LMS) and so-called Electronic Coursepacks, but not for so-called MOOCs (Massive Open Online Courses). Reasonable parts are defined by 15% of the services or a chapter or an article, in which the smaller part of each is essential. In case of multi-volume comprehensive work, the above mentioned definition applies to the single volume.
- (d) Print Copy. The Participating Institutions and the Authorized Users may print a reasonable portion of the Licensed Materials.
- (e) Recover Copying Costs. The Participating Institutions may impose a reasonable fee on the Authorized Users to cover costs of copying or printing portions of the Licensed Materials by or for the Authorized Users.
- (f) Archival/Backup Copy. Intentionally omitted .
- (g) Caching. The Participating Institutions and the Authorized Users are authorized in the course of an automatic process of an internet browser or any other software to make temporary local digital copies of the Licensed Materials in order to ensure proper operation and use of such internet browser or for proper functioning of such software. For the avoidance of doubt, the cached copy is not a derivative work.
- (h) Classroom Use. Intentionally omitted.
- (i) Collections of Information. The Participating Institutions and the Authorized Users shall be permitted to extract or use information contained in the Licensed Materials for educational, scientific, or research purposes, including extraction and manipulation of information for the purpose of illustration, explanation, example, comment, criticism, teaching, research, or analysis.
- (j) Course Packs (Print and Electronic). Intentionally omitted.
- (k) Course Reserves (Print and Electronic). Intentionally omitted.
- (l) Electronic Links. The Participating Institutions and the Authorized Users may provide hyperlinks from the Participating Institutions' and the Authorized Users'

web page(s) or website(s) to individual units of content within the Licensed Materials.

- (m) Scholarly Sharing. On an ad hoc basis, the Authorized Users may transmit to a third party, in hard copy or electronically, minimal, insubstantial amounts or a portion of the Licensed Materials for personal use or scholarly, educational, or scientific research or professional use in the nature of collaboration, comment, or scholarly exchange of ideas but in no case for resale or commercial purposes or in a manner that would substitute for direct access to the Licensed Materials via services offered by the Licensor.
- (n) Text and Data Mining. For the avoidance of doubt, the Licensor acknowledges and agrees that the rights and authorizations under this Section may not be excluded or limited pursuant to Article 7(1) of Directive (EU) 2019/790 of the European Parliament and of the Council of 17 April 2019 on copyright and related rights in the Digital Single Market and amending Directives 96/9/EC and 2001/29/EC, and that such rights and authorizations are in addition to, and not in lieu of, the rights and authorizations provided to the Authorized Users under statutory provisions governing the scope of such authorizations (i.e. text and data mining).

The Parties therefore hereby stipulate that the Authorized Users may use the Licensed Materials to perform and engage in text and/or data mining activities for academic research, scholarship, and other educational purposes and may utilize and share the results of text and/or data mining in their scholarly work and make the results available for use by others, so long as the purpose is not to create a product for use by third parties that would substitute for the Licensed Materials or a derivative product thereof. Proper academic citation is needed.

To facilitate these activities, the Licensor will, upon receipt of a written request, cooperate with the Licensee and the Authorized Users as will be reasonably necessary for making the Licensed Materials available in a manner and form most useful to the Authorized User. The Licensor shall provide the Licensee, upon request, with copies of the Licensed Materials for text and data mining purposes without any extra fees.

- (o) Interlibrary Loan. Using electronic, paper, or intermediated means, the Participating Institutions may at their discretion fulfill occasional requests from other institutions, a practice commonly called Interlibrary Loan ("ILL"). The Licensor agrees that the electronic form of the Licensed Materials may be used as a source for the ILL whereby articles and/or chapters can be printed and these print copies can be delivered via postal mail, fax, or fax-based service to fulfill ILL requests from an academic, research or other non-commercial library. Requests received from for-profit companies will not be honored. An ILL through secure electronic transmission, as demonstrated by the ARIEL, is permitted. For the avoidance of doubt, such secure electronic transmission could also be fulfilled by

any system which satisfies all of the following features: 1) ensures that requesting user (researcher/scholar) is affiliated to eligible institution; 2) enables limiting number of items requested per each journal title over a given period; 3) enables limiting number of requests fulfilled by the delivering library over a given period; 4) before getting access to the delivered pdf file, the requesting scholar (who is fully identifiable) must provably declare his/her full compliance with publisher's intellectual property rights. Limitations imposed in points 1, 2 and 3 of this paragraph could be mutually agreed between Licensor and Licensee. Files transmitted in this manner must carry copyright notices and comply with the applicable law.

(p) Bibliographic Citations. The Participating Institutions and the Authorized Users may use, with appropriate credit given, figures, tables, and brief excerpts from the Licensed Materials in the Participating Institutions' and the Authorized Users' own scientific, scholarly, and educational works. For the avoidance of doubt, the Participating Institutions and the Authorized Users may use citation and abstract information in faculty profiling systems, in lists of publications on faculty and institutional web pages, and to create bibliographies, and store a single copy of an individual document being part of the Licensed Materials, including within secure personal bibliographic reference/citation management systems.

4.4 No Diminution of Rights. Nothing in this Agreement, including but not limited to the Authorized Uses, shall be interpreted to diminish the rights and privileges of the Licensee, the Participating Institutions or the Authorized Users with respect to any of the Licensed Materials, including exceptions or limitations regarding the exclusive rights of copyright owners. In the event that any content included in the Licensed Materials is in the public domain or has been issued under a Creative Commons or other open license, the Licensor shall not place access, use or other restrictions on that content beyond those found in the open license, where applicable.

4.5 The Rights of the Author to Use Own Work. Notwithstanding any terms or conditions to the contrary in any author agreement between authors and the Licensor, authors who are Authorized Users ("**Authors**") whose accepted manuscript version (after peer review and including revisions from the peer review process but before copy-editing and final publication) of any work is accepted for publication by the Licensor ("**Content**") during the term of this Agreement shall retain the non-exclusive, irrevocable, worldwide, royalty-free right to use their Content for scholarly and educational purposes (as defined in Section 4.7(a) of this Agreement), including self-archiving or depositing the Content in institutional, subject-based, national or other open repositories or archives (as defined in Section 4.7(b) of this Agreement) (including the author's own web pages or departmental servers) and to comply with all grant or institutional requirements associated with the Content. The Licensee, the Participating Institutions and the Licensor shall cooperate in the implementation of procedures for the Licensor to deposit the Content into the Participating Institutions' institutional repository, or to make the Content available for the Licensee and/or the Participating Institutions to harvest, as they are developed during the term of this Agreement.

4.6 For the avoidance of doubt, it is the intent of the Parties that the Participating Institutions' Authors are third party beneficiaries of the provision in Section 4.5 of this Agreement. Nothing in this Section shall eliminate or limit any other rights the Licensee or any Author may have to deposit, host or make available the Content published by the Licensor.

4.7 **Definitions:**

- (a) **Scholarly and educational purposes:** Purposes encompassing teaching, research, and institutional needs, including but not limited to the right to:
- (i) use, reproduce, distribute, perform, and display the Content in connection with teaching, conference presentations, and lectures;
 - (ii) make full use of the Content in future research and publications;
 - (iii) republish, update or revise the Content in whole or in part for later publication;
 - (iv) meet requirements and conditions of research grants or publishing subventions provided by government agencies or non-profit foundations, and;
 - (v) grant to the Author's employing institution some or all of the foregoing rights, as well as permission to use the Content in connection with administrative activities such as accreditation, mandated reports to state governments, and similar purposes.

In all cases, the Author and/or the Author's employing institution will be expected to provide proper citation to the published version.

- (b) **Repositories or archives:** Open-access digital repository services, such as those provided by the Author's employing institution, an academic consortium, a discipline-based entity, or a governmental funding agency.

4.8 **Scope of Authorized Use and Access to Licensed Materials.**

- (a) **Unlimited Access.** Subject to the terms of this Agreement, the Participating Institutions and the Authorized Users shall have unlimited and simultaneous user access to the Licensed Materials.

5. Specific Restrictions on Use of Licensed Materials

5.1 **Unauthorized Use.** The Participating Institutions or the Authorized Users shall not knowingly permit anyone other than the Authorized Users to access the Licensed Materials.

5.2 **Modification of Licensed Materials.** The Participating Institutions or the Authorized Users shall not modify or manipulate the Licensed Materials without the prior written permission of the Licensor.

- 5.3 **Removal of Copyright Notice.** The Participating Institutions or the Authorized Users shall not remove, obscure or modify any copyright or other notices included in the Licensed Materials.
- 5.4 **Commercial Purposes.** The Participating Institutions or the Authorized Users may not use the Licensed Materials for commercial purposes, including but not limited to the sale of the Licensed Materials, fee-for-service use of the Licensed Materials; nor may the Licensee and the Participating Institutions impose special charges on the Authorized Users for use of the Licensed Materials beyond reasonable printing or administrative costs. For the avoidance of doubt, research conducted by the Participating Institutions and Authorized Users that is supported by a commercial entity shall not be considered use for commercial purposes.

6. Mutual Performance Obligations

- 6.1 **Notification and Cure of Unauthorized Use.** In the event the Licensee and/or any of the Participating Institutions becomes aware of an unauthorized use of the Licensed Materials and cannot promptly remedy it, the Licensee or the Participating Institution shall without undue delay notify the Licensor. In the event the Licensor becomes aware of unauthorized use of the Licensed Materials, the Licensor shall without undue delay notify the Licensee or the respective Participating Institution in writing.
- 6.2 In the case of unauthorized use which is causing serious and immediate material harm to the Licensor, the Licensor may temporarily suspend such offending individual Authorized User's access to the Licensed Materials (e.g. by blocking an individual user's IP address), provided that the Licensor immediately notifies the Licensee and the respective Participating Institution of any such suspension, including the reason for the suspension and any supporting details. Such temporary suspensions will be only of the shortest possible duration and the maximally limited extent necessary to terminate the unauthorized use and prevent its resumption. In the event that such suspension lasts longer than the shortest period necessary to prevent such unauthorized use, the Licensor is obliged to reimburse the Licensee the respective pro rata part of the Fee (calculated with respect to the actual number of excessively suspended Authorized Users) for the period of duration of such excessive suspension. Any excessive suspension of access to the Licensed Materials can serve as a Licensee's reason for termination of this Agreement pursuant to Section 11 of this Agreement.

7. Licensor Performance Obligations

- 7.1 The Licensor will use reasonable efforts to ensure that its performance will meet or exceed industry standards and practices. Additionally, the Licensor agrees to the following performance standards set out in this Section 7.

7.2 Availability of the Licensed Materials. Upon the Effective Date (as specified in Section 9.1 of this Agreement), the Licensor will make the Licensed Materials available to the Participating Institutions and the Authorized Users.

Should the Effective Date of this Agreement occur after 1 January 2026, the Licensor will make, or has already made, the Licensed Materials available to the Licensee, the Participating Institutions and Authorized Users in the full scope of the license stipulated herein already as of 1 January 2026 due to the necessity of access to the Licensed Material as of 1 January 2026, to the Participating Institutions and Authorized Users in the full scope of the authorization stipulated herein including all and any possible rights and authorizations such as potential archiving rights, extent of the access to the backfile content of Licensed Materials or Open Access publishing under this Agreement. Performance of the Licensor's obligation to ensure that the Licensed Materials become available before this Agreement takes effect shall be considered entirely as a performance according to and in compliance with this Agreement.

7.3 Discovery of the Licensed Materials. The Licensor will make reasonable efforts to make the Licensed Materials available through the Licensee's and/or the Participating Institutions' user interface and search systems for discovering and displaying content from local, database and web-based sources ("**Discovery Service System**") for indexing and discovery purposes. The Licensor shall provide to the Licensee's and/or the Participating Institutions' discovery service vendors on an ongoing basis the citation and complete descriptive metadata (including all subject headings, abstracts, and keywords) and full-text content necessary to facilitate optimal discovery and accessibility of the content for the benefit of the Participating Institutions and the Authorized Users.

7.4 Persistent Linking. The Licensor will make reasonable efforts to comply with the most current version of the OpenURL standard (ANSI/NISA Z39.88 or any that replaces it during the term of this Agreement) and will provide a mechanism for persistent links to content.

7.5 Online Terms and Conditions. In the event that the Licensor requires the Authorized Users to agree to additional terms relating to the use of the Licensed Materials (commonly referred to as "**click-through**" or "**clickwrap**" licenses), or otherwise attempts to impose terms on the Authorized Users through online terms and conditions invoked by the mere use or viewing of the Licensed Materials, such additional terms shall only apply to the Authorized Users who agreed to the respective additional terms. Such additional terms shall not materially differ from the provisions of this Agreement and violation of these additional terms by the Authorized Users will not be considered as breach of this Agreement but merely and exclusively as breach of these additional terms. In the event of any conflict between the additional terms and this Agreement, the terms of this Agreement shall prevail. The Licensor alone shall be liable and responsible for any personal data processing that occurs with respect to these additional online terms and conditions as the Licensor itself determines the scope and purpose of such personal data processing. For the avoidance of doubt, the Authorized Users are not a party to this Agreement.

- 7.6 **Documentation.** The Licensor will provide complete and up-to-date help and operational documentation to the Licensee, the Participating Institutions and the Authorized Users in an electronic format. Such documentation may be provided by means of the Licensor's online system and/or system for administrators.
- 7.7 **Support.** The Licensor will provide activation and installation support, including assisting the Licensee, Participating Institutions and Authorized Users with the implementation of any Licensor software. The Licensor will offer reasonable levels of continuing support to assist the Licensee, Participating Institutions and Authorized Users in the use of the Licensed Materials. The Licensor will make its personnel available by email [REDACTED] and/or phone [REDACTED] during cross section of the Licensor's and the Licensee's and/or the Participating Institutions' regular business hours, Monday through Friday, for feedback, problem-solving, or general questions, and they will respond in a timely manner. If there is a change in a contact for support, the Licensor is obliged to notify the Licensee and the Participating Institutions of such change. The change is effective by the delivery of the notice to the Licensee and the Participating Institutions.
- 7.8 **Training.** The Licensor will, upon agreement and in a reasonable quantity, provide to the Licensee, the Participating Institutions and the Authorized Users appropriate on-site or online training regarding the use of the Licensed Materials and any Licensor software. The Licensor will also provide additional training to the Licensee and the Participating Institutions staff if made necessary by any updates or modifications to the Licensed Materials or any of the Licensor's software.
- 7.9 **Updates.** The Licensor will provide regular system and project updates to the Licensee and the Participating Institutions as they become available. No additional fee shall be charged for updates.
- 7.10 **Quality of Service.** The Licensor shall use reasonable efforts to ensure that the Licensor's server or servers have sufficient capacity and rate of connectivity to provide the Licensee, Participating Institutions and their Authorized Users with all the services pursuant to this Agreement at a level exceeding or at least comparable to current standards in the online information provision industry in the Licensee's and the Participating Institutions' locale. The Licensor shall use reasonable efforts to provide continuous service seven (7) days a week with an average of 98% up-time per month. The 2% down-time can include periodic unavailability due to server maintenance; software installation or testing; loading or making available additional Licensed Materials as they become available; and unavailability because of service or equipment failure outside the control of the Licensor (including problems with public or private telecommunication services, or Internet nodes or facilities). The Licensor may schedule brief unavailability periods, but will do so only where (a) it has given at least forty-eight (48) hours' prior notice to the Licensee, and (b) in a way and at times that minimize inconvenience to the Licensee, the Participating Institutions and its Authorized Users, regardless of when notice has been given.

7.11 Problems with Licensed Materials. If the Licensed Materials fail to operate, display, load, or render in conformance with the terms of this Agreement, the Licensee or the Participating Institution shall immediately notify the Licensor in writing, and the Licensor shall promptly use best efforts to restore access to the Licensed Materials as soon as possible. In the event that the non-conformity materially affects the Participating Institutions' or the Authorized Users' use of the Licensed Materials, and the Licensor fails to remedy the non-conformity within five (5) business days, the Licensor shall reimburse the Licensee for such problems in an amount that is proportional to the Fee.

7.12 Transfer or Acquisition of Titles. If any portion of the Licensed Materials is transferred to or acquired from another party, the Licensor shall use best efforts to ensure that the Participating Institutions will not lose access to the Licensed Materials or any rights under this Agreement as a result of the transfer or acquisition. Any archival and perpetual access rights that have been granted shall be retained, whether the Licensor is acting as the transferring or acquiring party. If the Licensor is transferring any portion of the Licensed Materials to another party, the Licensor will assign all rights and obligations under this Agreement to the assignee. If the Licensor is acquiring content that will become subject to this Agreement, the Licensor will use best efforts to acquire the rights necessary for its performance under this Agreement, including but not limited to perpetual access rights. The Licensor shall provide the relevant party with all the relevant payment and rights information. For journal titles, the Licensor will comply with the NISO Transfer Code of Practice.¹

7.13 Completeness of Content. Intentionally omitted.

7.14 In order to facilitate the assessment of completeness of content, the Licensor will provide upon the Licensee's request a report of the content in the Licensed Materials at the title, issue, chapter, or item level. The Licensor will disclose to the Licensee content known or found to be missing from the Licensed Materials, including but not limited to images, pages, issues, and chapters.

7.15 Intentionally omitted.

7.16 Notification of Modifications of Licensed Materials. The Licensor may add, change, or modify portions of the Licensed Materials, or migrate the Licensed Materials to other formats on an annual basis, provided it furnishes the Licensee and the Participating Institutions with the Licensed Materials list in writing (including any changes thereto) on 30 September at the latest. For avoidance of doubt, the effect of any such changes will not take place sooner than sixty (60) days from furnishing the updated Licensed Materials list to the Licensee and Participating Institutions. If any of the changes, modifications, or migrations render the Licensed Materials substantially less useful to the Participating Institutions or their Authorized Users, the Licensee may seek to terminate this Agreement for breach pursuant to Section 11 of this Agreement.

¹ <http://www.niso.org/workrooms/transfer/>

- 7.17 **Withdrawal of Licensed Materials.** The Licensor reserves the right to withdraw from the Licensed Materials any item or part of an item for which it no longer retains the right to publish, or which it has reasonable grounds to believe infringes copyright or is defamatory, obscene, unlawful, or otherwise objectionable. The Licensor shall give prior written notice of the withdrawal to the Licensee and the Participating Institutions as soon as is practicable, but in no event less than thirty (30) days in advance of such withdrawal, specifying the item or items to be withdrawn.
- 7.18 If any such withdrawal renders the Licensed Materials less useful to the Licensee, the Participating Institutions or the Authorized Users, the Licensor shall reimburse the Licensee for the withdrawal in an amount proportional to the Fee. If any such withdrawal renders the Licensed Materials substantially less useful to the Participating Institutions or their Authorized Users, the Licensee may seek to terminate this Agreement for breach pursuant to Section 11 of this Agreement.
- 7.19 **Itemized Holdings/Title List.** Prior to the beginning of every calendar year, the Licensor will provide the Licensee with the current itemized holdings report that will specify the titles included in the Licensed Materials for the next Subscription Period (as specified in Section 9.3 of this Agreement). The Licensor will use reasonable efforts to update itemized holdings reports as soon as is practicable when the holdings information changes, and will provide this information to the Discovery Service System in a timely manner and to the Licensee on request. If the Licensed Materials include content covered by the NISO Knowledge Bases And Related Tools (KBART) Recommended Practice,² the Licensor will provide itemized holdings lists for the Licensed Materials in a KBART-compliant format, including a column/field for dates (YYYY-MM) of additions.
- 7.20 **Usage Statistics.** The Licensor will provide access to both composite system-wide use data and itemized data for the Licensee and the Participating Institutions, on a monthly basis. The statistics shall meet or exceed the most recent project Counting Online Usage of NeTworked Electronic Resources ("COUNTER") Code of Practice Release,³ including but not limited to its provisions on customer confidentiality. When a release of a new COUNTER Code of Practice is issued, the Licensor shall comply with the implementation time frame specified by COUNTER to provide usage statistics in the new standard format. It is more than desirable that the Standardized Usage Statistics Harvesting Initiative (SUSHI) Protocol⁴ is available for the Licensee to harvest the statistics.
- 7.21 The Licensor shall not provide the Licensee's usage statistics in any form to any third party without the Licensee's prior written consent, unless the third party owns rights in the Licensed Materials; in such case the Licensor shall ensure that the usage statistics will not be provided to any other third party. The Licensor shall not provide

⁴ <http://www.niso.org/workrooms/sushi/>

usage statistics of any Participating Institution in any form to any third party (with the exception of the Licensee) without the Participating Institution's prior written consent, unless the third party owns rights in the Licensed Materials. In all cases, the disclosure of such data shall fully protect the anonymity of individual users and the confidentiality of their searches, and will comply with all applicable privacy legislation. The Licensor shall not disclose or sell to any third party usage data or information about the Licensee, any Participating Institution or the Authorized Users without the Licensee's and/or the relevant Participating Institution's prior written consent or unless specifically required by law.

- 7.22 Confidentiality of Personally Identifiable Information (Personal Data).** The Licensor agrees that no personally identifiable information (personal data), including but not limited to log-ins recorded in system logs, IP addresses of patrons accessing the system, saved searches, any identification data, usernames and passwords, will be shared with third parties, except in cases required or allowed by the applicable law, particularly by the Data Protection Law (as specified in Section **Chyba! Nenalezen zdroj odkazů.** of this Agreement). If the Licensor is compelled by law or court order to disclose personally identifiable information (personal data) of the Authorized Users or patterns of use, the Licensor shall provide the Licensee with adequate prior written notice as soon as is practicable, so that the Licensee, the Participating Institution or the Authorized Users may seek protective orders or other remedies. The Licensor will notify the Licensee and Authorized Users as soon as is practicable if the Licensor's systems are breached and the confidentiality of personally identifiable information (personal data) is compromised.
- 7.23 Notice of the Use of Digital Rights Management Technology.** In the event that the Licensor utilizes or implements any type of digital rights management ("**DRM**") technology to control the access to or usage of the Licensed Materials, the Licensor will provide the Licensee with a description of the technical specifications of the DRM and how it impacts access to or usage of the Licensed Materials. In no event may such DRM technology be used in a way that would limit the usage rights of the Participating Institution or any Authorized User as specified in this Agreement or under applicable law. If the use of DRM renders the Licensed Materials substantially less useful to the Participating Institutions or their Authorized Users, the Licensee may seek to terminate this Agreement for breach pursuant to Section 11 of this Agreement.
- 7.24 Use of Digital Watermarking Technology.** In the event that the Licensor utilizes any type of watermarking technology for any element of the Licensed Materials, the watermarks may not reduce the readability of the content or degrade image quality. Such watermarks shall not contain user-related information, including but not limited to an account number, IP address, and usernames. If digital watermarking technology is implemented, the Licensor will notify the Licensee at least thirty (30) days in advance of such implementation, and provide the technical specifications for the watermarking technology used. This reservation will be effected, as the case may be, by means of an amendment to this Agreement based on the interest of Potential Participating Institutions mentioned in the preceding sentence to receive performance under this Agreement. The Parties may include the price for the licenses for these Potential Participating Institutions in the Appendix B.

23. Severability

23.1 If any provision or provisions of this Agreement shall be held to be invalid, illegal, unenforceable or in conflict with the law, the validity, legality, and enforceability of the remaining provisions shall not in any way be affected or impaired thereby. Appendix E: Terms of Open Access Publication

1. Definitions

“All Inclusive participant” means Participating Institution which subscribes to package All Inclusive

“Capped Hybrid OA R&P subscribers” means Participating Institution which subscribes to HSS/STM/Complete package and has a capped hybrid OA publishing token

“Eligible Authors” means authors who are affiliated with a Participating Institutions, i.e. who are students enrolled at or accredited to Participating Institutions or who are teaching and research staff employed by or otherwise accredited to the Participating Institutions, whereby in case of articles published by multiple authors only the corresponding author may qualify as an Eligible Author.

“Eligible Articles” means materials eligible for open access publication within the framework of this Agreement. Eligible Articles shall be submitted by Eligible Authors.

“Open Access License” means the Creative Commons license Attribution 4.0 International (CC-BY 4.0) used for the publishing of Eligible Articles. The Creative Commons CC0 license will be assigned to the data accompanying the Eligible Articles.

“Rightslink” means the system hosted by the Copyright Clearance Center which De Gruyter (“Publisher”) uses for the identification and administration of the open access publication. For the avoidance of doubt, De Gruyter always remains primarily responsible towards Licensee for any and all obligations set forth in this Agreement. Copyright Clearance Center’s failure in identifying and/or administering the open access publication will not relieve De Gruyter of its obligations.

2. Identification of Eligible Authors

2.1 De Gruyter will enable the open access publication of Eligible Articles through Rightslink. The Licensee takes into account that Eligible Authors shall be identified through at least one of the following parameters: their e-mail domain; persistent identifier, such as Ringgold, ORCID or other recognized identifier.

2.2 Under Rightslink, Eligible Authors from All Inclusive participant **Institute of Philosophy of the ASCR** shall not be offered the option to publish their Eligible Article under any license other than the Open Access License. Nothing in this Agreement shall be taken to restrict, limit or curtail any provisions of the Open Access License.

2.3 De Gruyter will strive to clearly indicate the availability of an institutional funding agreement to Eligible Authors both within the submission process and on its website. This applies to all participating institutions – both the capped Hybrid OA R&P subscribers and the All Inclusive participant. It will make clear that Eligible Authors from All Inclusive participant **Institute of Philosophy of the ASCR** do not need to pay article processing charges for publishing articles open access in ***the Subscribed Product (HSS Journal Package)***.

2.4 If De Gruyter fails to identify authors as Eligible Authors from All Inclusive participant **Institute of Philosophy of the ASCR** and then publishes their article under a subscription model, De Gruyter shall be responsible to convert the article promptly at no additional cost so that it is published pursuant to the Open Access License. This also applies to institutions participating in the capped Hybrid Open Access R&P subscription, in the event that there are available HOA Tokens, and said journal title is HOA.

2.5 If De Gruyter fails to identify authors as Eligible Authors and then charges them with article processing charges for publication of their article (or charge them without discount in the case of a fully open access eJournal), De Gruyter shall refund such paid APC (or an amount corresponding to the discount in the case of a fully open access eJournal) to the author within 30 days.

3. Verification of Articles

3.1 Once an Eligible Author's article has been accepted for publication, De Gruyter shall notify the Licensee by email for verification in the Rightslink system. Through such notification and for verification purpose only, Licensee will get access to all necessary metadata including, but not limited to, name and email address of the author, full name of author's affiliation (e.g. university, institute, department) and other affiliations if there are more than one, submission date, journal title, manuscript ID (if applicable), article title, article type, license type, amount of article processing charges.

3.2 The date that will determine if an article is eligible to the publication terms of this Agreement will be the date on which the article has been accepted for publication by De Gruyter.

4. Article Publication

4.1 Eligible Articles are published online without delay and in the first instance under the Open Access License, with Eligible Authors retaining their copyrights. Eligible Authors only grant De Gruyter the non-exclusive right to publish Eligible Articles under the terms and conditions of the Open Access Licence.

4.2 Affiliation of the Eligible Authors, funders of the research and funder of the open access publication must be stated in the version of record of the articles.

4.3 Upon publication, De Gruyter will use reasonable efforts to provide the Eligible Author by email with a PDF copy of the version of record of the Eligible Article, the article's DOI, the funder name, and a human-readable summary of the Open Access License terms with encouragements to share the article in compliance to it, for example via social medias, blogs and repositories.

4.4 De Gruyter will submit the article and its metadata to relevant third-party repositories.

5. Metadata and Industry Standards

5.1 When provided by the Eligible Author, De Gruyter undertakes to use ORCID (<http://orcid.org/>) throughout the workflow from submission to publication, expose Eligible Authors' ORCID ID in Eligible Articles and distribute it to Abstracting & Indexing (A&I) services, CrossRef and other discovery services.

5.2 Upon publication of an Eligible Article, De Gruyter will register as much metadata as possible on CrossRef, including, but not limited to: (1) the Eligible Article's digital object identifier (DOI), (2) the funding metadata, including funder name and grant number, in the metadata in Funder Registry (on CrossRef), (3) bibliographic citations, (4) funder of the open access publication and (5) the Open Access License.

5.3 De Gruyter is responsible for updated and clear information at the DOAJ and SHERPA/RoMEO websites.

5.4 De Gruyter will comply with the last version of NISO's Recommended Practice on Access and Licensing Indicators (<https://www.niso.org/standards-committees/access-and-license-indicators>), including, but not limited to, guidance regarding `free_to_read` and `license_reference` metadata fields and regarding mechanisms for distributing metadata.

6. Editorial Independence

6.1 The parties acknowledges that while the Licensee has financial obligations towards De Gruyter, the Licensee is in no way involved with the editorial process. Nothing herein contained shall oblige De Gruyter to publish any article submitted to De Gruyter by an Eligible Author. Licensee acknowledges that the selection of material to be published by De Gruyter is entirely at the discretion of De Gruyter's editorial policy.

7. Reporting

7.1 De Gruyter will quarterly report, in a machine readable format, all articles from authors affiliated with the Participating Institutions published in eJournals, indicating the journal type (i.e. hybrid, fully open access or subscription based). The reports shall include the following details:

- Name and email address of the author
- Author's affiliation
- Date of acceptance
- Online publication date
- Journal Title
- Article title
- Article type
- DOI and a link to the published article
- CC license type
- Funding organisation (research funder)
- APC cost and date of payment (when applicable)

7.2 De Gruyter will report annually how many eJournals have flipped during the year from/to a subscription model to/from an open access model, including hybrid model. Reporting will also include details of journals migrated from HOA to S20 (subscribe to open)

7.3 A copy of all reports will be forwarded to CzechELib to email address [REDACTED].

10. Workflow enhancement

The parties agree to collaborate to enhance the workflow from submission to publication described herein, as well as invoicing and reporting processes. Any workflow revisions shall tend to meet all relevant parts of the “ESAC Workflow Recommendations for Transformative Agreements” available at <https://esac-initiative.org/about/oa-workflows/>
