

CONTENT LICENSING AGREEMENT

Part 1 – Custom Terms

GENERAL	
Effective Date	This Agreement shall become valid on the date of its execution by both of the Parties. This Agreement shall take effect on the date of its publication in the Czech Register of Contracts ("Effective Date") or January 1, 2026, whichever occurs later.
Initial Term	Subject to the Standard Terms and Conditions, this Agreement shall be for an initial term that begins on the Effective Date and continues in effect for (#3) three calendar years (the "Initial Term"). This Agreement will not renew on an evergreen or automatic basis. If the Licensed Content includes perpetual access materials (as defined below), the license rights provided hereunder shall continue unless terminated by AIPP in the event of the Licensee's breach of the terms and conditions of the Agreement.

Post-Cancellation Access Fee (if applicable): \$1,000							

Part 2 – Standard Terms & Conditions

This Content Licensing Agreement (“Agreement”), consisting of Part 1 – Custom Terms and Part 2 – Standard Terms and Conditions, and any appendices attached, is effective on the Effective Date, by and between Licensee and AIP Publishing LLC (“AIPP”), with offices at 1305 Walt Whitman Road, Suite 110, Melville, NY 11747-4300.

WHEREAS, AIPP has the right to grant Licensee (and its locations / Participating Institutions, if applicable, as set forth in **Appendix A**), access to the Licensed Content, which is delivered via a technology platform or other means of delivery that AIPP deems appropriate (“Platform”);

WHEREAS, Licensee wishes to provide Authorized Users access to the Licensed Content using the Platform by paying the Fees;

WHEREAS, Licensee acts as a central purchasing body within the meaning of Act No. 134/2016 Coll., on Public Procurement, as amended, for concluding license agreements for the benefit of Participating Institutions as part of the project CzechELib.

NOW THEREFORE, in consideration of the foregoing premises and the mutual covenants contained herein, and other valuable consideration received, the parties agree as follows:

1. LICENSED RIGHTS

a. **License.** AIPP provides a non-exclusive, non-transferable license to Licensee’s Authorized Users, subject to the terms, conditions and restrictions set forth in this Agreement, to access, search, view, download, print and save the Licensed Content via the Platform, solely for research, educational and internal purposes. In no event shall Licensee, directly or indirectly, sell, republish or distribute the Licensed Content. If Licensee is a single institution with multiple locations, the authorized locations are set forth in **Appendix A**. If Licensee is a consortium representing the Participating Institutions set forth in **Appendix A**, the Participating Institutions’ Authorized Users shall have the right to access the Licensed Content pursuant to this Section, and the Participating Institutions are subject to the same restrictions imposed upon the Licensee in this Agreement.

b. **License Rights Post-Termination.** If Licensee pays a “Subscription Fee” as set forth in the Custom Terms, it has a nonexclusive, royalty-free, perpetual license, during and after the Term, to the Licensed Content published during the years for which it paid a Subscription Fee (which includes content paid for by Licensee including or after 1999), pursuant to the terms set forth in **Appendix A**. If Licensee fails to subscribe to at

least one journal title online, Licensee will pay an annual Post-Cancellation Access fee for using the Platform for the Licensee's and Participating Institutions' post cancellation access to the Licensed Content, unless as otherwise agreed upon between the parties. Participating Institutions that pay Access Fees and not Subscription Fees, as set forth in **Appendix A**, are not entitled to post-termination access to the Licensed Content. All post-termination rights are subject to the restrictions set forth in Section 3 and any other applicable terms and conditions of this Agreement regulating the use of Licensed Content.

c. **Authorized Users.** Authorized users are defined as and limited to Participating Institutions' current faculty members, staff, employees, students, subcontractors and registered users in case of public libraries, as applicable (collectively, "Authorized Users"), and walk-in users using computer terminals on premises ("Walk-in Users"). All Authorized Users who have been issued an institutional username and password may also access the Licensed Content remotely, using devices that are located off the premises of Licensee (or a Participating Institution). Licensee or the Participating Institutions must require the Authorized Users to use a username and password, or other agreed upon access control such as biometrics which shall in all cases be used in accordance with the respective legal regulations, to login before accessing the Platform using computers located off the premises of Licensee (or Participating Institutions). For the sake of clarity, no Walk-in Users are permitted to access the Platform remotely.

d. **Compliance.** Licensee will use commercially reasonable efforts to cooperate with AIPP to remedy any Authorized User's or Participating Institution's failure to comply with the terms of this Agreement. Licensee will make reasonable efforts to inform its Authorized Users of their obligations in connection with the use of the Licensed Content.

The Licensee will enter into a separate agreement with each of the Participating Institutions where the Licensee

- (a) will ensure that the Participating Institutions will use reasonable efforts to provide the Authorized Users with appropriate notice of the terms and conditions under which access to the Licensed Content is granted under this Agreement.
- (b) will ensure that the Participating Institutions will use reasonable efforts to restrict access to the Licensed Content to the Authorized Users in the case of their unauthorized use of the Licensed Content.
- (c) where access to the Licensed Content is to be controlled by the use of passwords, the Licensee shall ensure that the Participating Institutions will use reasonable efforts to inform the Authorized Users that they should not divulge their numbers and passwords to any third party. The Licensee shall ensure that the Participating

Institutions will also use reasonable efforts to maintain the confidentiality of any institutional passwords provided by AIPP.

- (d) will use all reasonable efforts to ensure that the Participating Institutions will comply with the terms of this Agreement and will use the Licensed Content in accordance with the license terms set out in this Agreement and will observe proper fulfilment of requirements set out in this Agreement. The Licensee shall use all reasonable efforts to ensure that the Participating Institutions will ensure that the Authorized Users only use the Licensed Content in accordance with the license terms set out in this Agreement.
- (e) Participating Institutions which do not fully execute these separate agreements by (i) May 15th, 2026 or (ii) thirty (30) days from the publication of this Agreement in the Czech Register of Contracts, whichever occurs later, will have all access and publishing rights suspended until the agreements are executed by the Participating Institution and Licensee.

e. Credentials. When the relationship between an Authorized User and the Licensee terminates, Licensee shall take reasonable steps to prevent the previously Authorized User from accessing the Platform, by promptly disabling the previously Authorized User's access to the Licensed Content except from areas where the Licensed Content is accessible to the public.

2. FAIR USE & RIGHTS OF LIBRARIES

a. Fair Use and Rights of Libraries. Authorized Users are entitled to use the Licensed Content in a manner that comports with §107 and §108 of the U.S. Copyright Act, or other similar applicable laws outside the U.S., provided that the Authorized Users provide proper attribution to the copyright owners and AIPP.

b. Such use shall include but not to be limited to:

(i) Display. Licensee, Participating Institutions and Authorized Users shall have the right to electronically display the Licensed Content.

(ii) Digital Copy. Licensee, Participating Institutions and Authorized Users may download and digitally copy a reasonable portion of the Licensed Content. For

purposes of clarity, the downloading or copying of entire issues, or volumes is not permitted.

(iii) Print Copy. Licensee, Participating Institutions and Authorized Users may print a reasonable portion of the Licensed Content. For purposes of clarity, the downloading, printing, or copying of entire issues, or volumes is not permitted.

(iv) Recover Copying Costs. Licensee and the Participating Institutions may charge a reasonable fee limited to covering the direct costs of copying or printing portions of Licensed Content for Authorized Users. Commercial copying and / or printing services are not permitted.

(v) Caching. Licensee, the Participating Institutions and Authorized Users may cache the Licensed Content through the use of a browser or other appropriate software in order to view, read and otherwise access the Licensed Content in a manner enabled by such browser or software. For the avoidance of doubt, cached content does not constitute a derivative work.

(vi) Classroom Use. Licensee, the Participating Institutions and Authorized Users may distribute single copies of individual articles or items of the Licensed Content in print or electronic form to Authorized Users. For the avoidance of doubt, classroom handouts shall include the distribution of a copy for teaching purposes to all individual Authorized Users in a class at Authorized Sites (Appendix B).

(vii) Collections of Information. Licensee, the Participating Institutions and Authorized Users shall be permitted to manually extract or use information contained in the Licensed Content for educational, scientific, or research purposes, including extraction and manipulation of information for the purpose of illustration, explanation, example, comment, criticism, teaching, research, or analysis. Proper attribution of source material is required.

(viii) Course Reserves (Print and Electronic). Licensee, the Participating Institutions and Authorized Users may use a reasonable portion of the Licensed Content in connection with specific courses of instruction offered by the Licensee and/or the Participating Institutions.

(ix) Electronic Links. Licensee, the Participating Institutions and Authorized Users may provide hyperlinks from the Licensee's, the Participating

Institutions' and Authorized Users' web page(s) or web site(s) to individual units of content within the Licensed Content.

(x) Scholarly Sharing. On an ad hoc basis, Authorized Users may transmit to a third party in hard copy or electronically, minimal, insubstantial amounts, i.e. one or two articles as provided in the example, of the Licensed Content for personal use or scholarly, educational, or scientific research or professional use in the nature of collaboration, comment, or the scholarly exchange of ideas but in no case for resale or commercial purposes or in a manner that would substitute for direct access to the Licensed Content via services offered by AIPP. For the avoidance of doubt, entire articles, issues, or volumes of the Licensed Content may not be shared except as explicitly permitted in this Agreement.

c. Interlibrary Loan. Licensee may use the Licensed Content to fulfill a reasonable number of requests from other libraries for specific material for interlibrary loans ("ILL"). The Licensed Content for ILL may be transmitted by mail, fax or secure, prevailing technology, provided that Licensee will not require the receiving library to pay a fee other than for the direct cost recovery for such transmission, and to the best of Licensee's knowledge, the loaned material is for the purposes of research or private study, and not for commercial use. The borrowing and lending libraries will comply with applicable legal guidelines in connection with ILL. For the avoidance of doubt, such secure electronic transmission could also be fulfilled by any system which satisfies all of the following features: 1) ensures that requesting user (researcher/scholar) is affiliated to eligible institution; 2) enables limiting number of items requested per each journal title over a given period; 3) enables limiting number of requests fulfilled by the delivering library over a given period; 4) before getting access to the delivered pdf file, the requesting scholar (who is fully identifiable) must provably declare his/her full compliance with publisher's intellectual property rights. Limitations imposed in points 1, 2 and 3 of this paragraph could be mutually agreed between AIPP and Licensee.

d. Course Packs. Material from the Licensed Content may be included in anthologies ("Course Packs") in print or digital form for distribution to Authorized Users for their use in connection with classroom instruction or in reserves (print or digital) set up by libraries for access by Authorized Users in connection with specific courses offered by the Licensee. Access to copies of items in digital form which are included in online Course Packs or reserves will be disabled by the Licensee and its locations when the course is no longer offered. Course Packs in non-electronic non-print perceptible form, such as audio or Braille, may also be offered to Authorized Users.

e. Accessible Formats / Modification. Licensed Content may be altered or modified as necessary to provide an equivalent level of service to Authorized Users with

appropriately documented disabilities that require modified Content. In cases where the Licensee determines that the Licensed Content are not already provided in Accessible Format, the Licensee will request permission from AIPP to adapt or modify the format to make the Licensed Content perceivable and usable with assistive devices by persons with visual, perceptual, physical, or other relevant disabilities. Request for permission is, however, not necessary if the right of adaptation or modification of the Licensed Content for persons with relevant disabilities follows directly from the respective EU legal regulations. In no event shall Licensee, directly or indirectly, sell or otherwise monetize the modification made under this Section.

3. RESTRICTIONS.

a. Intellectual Property. Licensee shall not, and shall not cause, assist or encourage any Authorized Users or third parties to: (i) infringe any intellectual property or other right of any party (including AIPP), or violate any applicable laws, rules or regulations, including, without limitation, redistribute, repurpose, resell, alter, recompile, share access with users not authorized by Licensee, republish or post in any media, print or electronic form, such as on the Internet or using peer-to-peer or similar file sharing for anyone to access, the Licensed Content (or any search results thereof), in whole or in part, or otherwise commercialize the Licensed Content; or (ii) alter, obscure or remove the copyright notices or the watermark in the Licensed Content, any article, or other such materials.

b. Operation of the Platform. Without AIPP's authorization, Licensee shall not, and shall not cause, assist or encourage any Authorized Users or third parties to: (i) disrupt or interfere with the security or use of the Platform, including, without limitation, through the use of viruses, cancel bots, Trojan horses, harmful code, flood pings, denial of service attacks, packet or IP spoofing, or similar methods or technology; (ii) misrepresent Licensee's affiliation with a person or entity, or submit false or misleading information to AIPP, including, without limitation, IP addresses that do not belong to any Participating Institution; (iii) collect, manually or through an automatic process, information about users or their usage without their express consent.

c. Systematic Download. Without AIPP's authorization, Licensee shall not, and shall not cause, assist or encourage any Authorized Users or third parties to: (i) systematically or programmatically download, whether manually or by using programs such as robots or searchbots, spiders, crawlers or other automated downloading programs, algorithms or devices, to continuously or automatically search, scrape, extract, deep link or index all or a substantial portion of the Licensed Content, such as an entire issue of or article from a journal; (ii) download the Licensed Content in aggregate

for central storage or later retrieval. For the avoidance of doubt, this Section 3 c. shall not apply to text and data mining activities, which are governed by Appendix C.

d. Violations. Licensee shall notify AIPP of any copyright infringement, or unauthorized use of the Licensed Content of which Licensee becomes aware. To the extent AIPP determines that any copyright infringement or violation of this Agreement has occurred (including a violation by an Authorized User), Licensee shall cooperate with AIPP in investigating any unauthorized uses and in taking reasonable steps to prevent a reoccurrence, such as suspending or terminating an actual or suspected unauthorized user's access to the Platform or Licensed Content upon AIPP's reasonable request. If AIPP reasonably suspects or determines that an Authorized User has violated the terms of this Agreement or any agreement with Licensee or a Participating Institution that a user entered into to access the Platform, or that Licensee is otherwise allowing the Platform to be misused, AIPP may, without notice, suspend such user's account or if the Licensee is allowing the Platform to be misused Licensee's access to the Platform, provided that AIPP immediately notifies the Licensee and/or Participating Institution of any such suspension, including the reason for the block and any supporting details. Such suspensions will be of the shortest duration possible sufficient to terminate the alleged unauthorized activity and prevent its resumption. In the event that such suspension lasts longer than the shortest period necessary to prevent such unauthorized use, AIPP is obliged to reimburse the Licensee the respective pro rata part of the Fees (calculated with respect to the actual number of excessively suspended Authorized Users) for the period of duration of such excessive suspension. Any excessive suspension of access to the Licensed Content can serve as a Licensee's reason for termination of this Agreement.

4. AIPP OBLIGATIONS

a. Availability. During the term, AIPP shall use commercially reasonable efforts to provide continuous access to the Licensed Content via the Platform, except for periodic downtime for maintenance, and interruption of access to the Platform due to factors outside of AIPP's control. AIPP shall use reasonable efforts to provide continuous service seven (7) days a week with an average of 98% up-time per month. The 2% down-time includes periodic unavailability due to server maintenance; software installation or testing; loading or making available additional Licensed Content as they become available; while unavailability because of service or equipment failure outside the control of AIPP (including problems with public or private telecommunications services, or Internet nodes or facilities) is not calculated into the down-time period. AIPP may schedule brief unavailability periods provided it will use commercially reasonable effort to give at least forty-eight (48) hour notice to Licensee.

b. Usage Statistics. AIPP's usage statistics (e.g., COUNTER stats) are available via the Platform. AIPP shall enable access to itemized data for Licensee, Participating Institutions, individual campuses and labs, on a monthly basis. Statistics shall meet or exceed the most recent project Counting Online Usage of NeTworked Electronic Resources (COUNTER) Code of Practice Release, including but not limited to its provisions on customer confidentiality. When a release of a new COUNTER Codes of Practice is issued, Licensors shall comply with the implementation time frame specified by COUNTER to provide use statistics in the new standard format. It is more than desirable that the Standardized Usage Statistics Harvesting Initiative (SUSHI) Protocol is available for the Licensee to harvest the statistics.

c. AIPP shall not provide Licensee's usage statistics in any form to any third party without the Licensee's written authorization, unless the third party owns rights in the Licensed Materials or AIPP requires confidential sharing of data with business partners for internal purposes. AIPP shall not provide usage statistics of any Participating Institution in any form to any third party with the exception of the Licensee without the Participating Institution's written authorization, unless the third party owns rights in the Licensed Materials, or AIPP requires confidential sharing of data with business partners for internal purposes. In all cases, the disclosure of such data shall fully protect the anonymity of individual users and the confidentiality of their searches, and will comply with all applicable privacy laws. The AIPP shall not disclose or sell to other parties usage data or information about the Licensee, any Participating Institution or their Authorized Users without the Licensee's and/or Participating Institution's written permission or as required by law.

d. Accessibility. AIPP's Accessibility statement is available at <https://publishing.aip.org/resources/researchers/policies-and-ethics/accessibility/>. AIPP's Accessibility documents (e.g. Voluntary Product Accessibility Template, or "VPAT") are available at <https://publishing.aip.org/vpat>, which AIPP may revise either at any time without notice. Licensee is responsible for reviewing all posted information.

e. Backup. In the unlikely event that AIPP is unable to provide electronic access to one or more of the journal titles that comprise the Licensed Content for an extended period of time, AIPP will cooperate with a third-party vendor that has archived the Licensed Content to ensure that Licensee will be able to access the Licensed Content continuously, per the terms of this Agreement.

5. FEES AND PAYMENT

a. Fees. Licensee and Participating Institutions shall pay all Fees pursuant to the Custom Terms (including subscription, access) and any other fees as set forth in the attached appendices. For the avoidance of doubt, Licensee is paying on behalf of all Participating Institutions. The Fees may be increased by AIPP upon notice, and Licensee's consent, if a print version, a new publication, and/or an additional location/Participating Institution is added by amending this Agreement in compliance with public procurement law. If a journal is discontinued, the Fees will be adjusted accordingly for the benefit of the Licensee. All Fees are calculated on an annual basis. Subscription Fees provide for certain post-termination license rights, as set forth in Section 1(b). Access Fees do not entitle a Licensee to post-termination license rights.

b. Taxes. Licensee must pay any applicable taxes arising out of the access to the Licensed Content, and/or the products and services as set forth in the appendices, other than taxes on AIPP's net income.

The Fees shall be paid to AIPP's bank account no.: [REDACTED]

[REDACTED] Any change of the bank account shall be notified to the Licensee without undue delay. The notice shall be signed by the authorized representative and will become effective upon its delivery to the Licensee.

The Fees for the Licensed Content shall be paid annually for each commenced calendar year of the duration of this Agreement in the amount set forth therein. The parties expressly state that the Fees for the year 2026 shall be paid in the whole amount, regardless of the Effective Date of this Agreement.

All the prices (Fees) and services under this Agreement are set forth as final, unchangeable and the maximum allowable and cover and include all activities relating to the performance under this Agreement. AIPP may not charge any additional costs or expenses to the Licensee, nor may Licensee pay any less than the Fees set forth herein except where expressly stated in the Agreement.

The Fees for each commenced calendar year of the duration of this Agreement shall be paid in one full payment within one invoice issued no earlier than January 1 of the calendar year to which the Fees relate with the following maturity:

- 100% on 15 May of the given year for which the Licensed Content are paid;

The above-mentioned maturity is applicable only if the invoice is delivered to the Licensee no later than fifteen (15) days before the stated maturity of the payment, i.e. by

the end of April of the given year; If the invoice is delivered later, the due date of the invoice shall be within fifteen (15) days from the date of the provable invoice delivery.

The invoice shall be issued, and payable, in US dollars.

Invoice - the tax document shall contain all the requisites of a tax document. The invoice shall contain all the requisites set forth by the applicable legislation, especially Act No. 235/2004 Coll., VAT Act, as amended (“VAT Act”). The invoice shall be delivered to the Licensee either originally or electronically to the e-mail address as stated in the Custom Terms. The invoice shall include a summary of all the Licensed Content pursuant to this Agreement. AIPP shall bear any and all costs connected with a change of the exchange rate which might arise if AIPP issues an invoice containing incorrect or incomplete information.

In the event the invoice is issued by an EU-based licensor (AIPP) or its EU-based subsidiary, the invoice shall also contain information that the reverse charge rules are maintained and followed. This duty does not apply to the licensors based outside the EU.

If the invoice does not contain the requisites set forth in this Agreement or by the applicable legislation or these are incorrect or incomplete, the Licensee is entitled to return such invoice to AIPP for completion/correction. In such case, the term of payment shall be interrupted and the new term of payment shall run from the provable corrected invoice delivery date to the Licensee and pursuant to the rules set forth above. The procedure under the previous sentence may also be repeated. AIPP shall correct the invoice in each case within 15 days as of written notification by the Licensee on incorrect or incomplete invoice. Denial of monetary performance and the related return of an invoice in accordance with this paragraph do not constitute a default in the payment by the Licensee.

Licensee's fulfillment of any financial duty associated with performance under this Agreement shall be understood as the moment of debiting the full amount from the bank account of the Licensee.

Each party shall bear its own costs in connection with this Agreement. The bank fees for the bank transfer are shared between the parties.

6. TERM AND RENEWAL

a. Term. The Initial Term of this Agreement is the period set forth in the Custom Terms. Should the Effective Date of this Agreement occur after 1 January 2026,

AIPP will make, or has already made, the Licensed Content available to the Licensee, the Participating Institutions and Authorized Users in the full scope of the license stipulated herein already as of 1 January 2026 due to the necessity of access to the Licensed Content as of 1 January 2026, to the Participating Institutions and Authorized Users in the full scope of the authorization stipulated herein including all and any possible rights and authorizations such as potential archiving rights, extent of the access to the backfile content of Licensed Content or Open Access publishing under this Agreement. Performance of AIPP's obligation to ensure that the Licensed Content become available before this Agreement takes effect shall be considered entirely as a performance according to and in compliance with this Agreement.

b. Renewal. Intentionally left blank.

c. Termination for Failure to Pay. If Licensee (and/or any of the Participating Institutions) fails to pay the Fees pursuant to Section 5, AIPP may suspend or terminate Licensee's and/or its Participating Institutions' access to any and all of the Licensed Content, and/or any other products or services set forth in the attached appendices. If Licensee (and/or any of the Participating Institutions) wish(es) to be reinstated after AIPP suspends access to the Licensed Content for failure to pay, Licensee must first pay for the Fees from and including the time access was suspended to the end of the then-current annual subscription term. In addition, authorized copies of the Licensed Materials made by the Authorized Users may be retained for educational purposes and used subject to the terms of this Agreement even after the termination of this Agreement. Subscription Fees provide for certain post-termination license rights, as set forth in Section 1(b). Access Fees do not entitle a Licensee to post-termination license rights.

d. Early Termination for Financial Hardship. The Licensee may terminate this Agreement, even partially with respect to particular Participating Institution or Participating Institutions, without penalty as of 31 December 2026 and subsequently every potential 31 December of the following Subscription Period if (i) sufficient content acquisitions funds are not allocated, or (ii) content acquisition funds are withdrawn or reduced, or (iii) the relevant Participating Institution does not have sufficient funds to participate or (iv) tariffs on services are introduced, to enable the Licensee and/or Participating Institutions, in the exercise of its reasonable administrative discretion, to continue this Agreement. In the event of such financial circumstances, the Licensee will notify AIPP of the intent to terminate the Agreement or partially terminate the Agreement thirty days (30) days before the end of 2027 and at least ninety (90) days before the end of any other respective calendar year. The Agreement shall terminate in the selected extent on the last day of the respective Initial term without penalty of expense to the Licensee of any kind whatsoever, except as to the portions of payments herein agreed for which funds shall have been appropriated and budgeted or otherwise

available. In the event of such termination of this Agreement, the Licensee and Participating Institutions shall maintain their perpetual right to the Licensed Materials, as defined under Section 5(a). No termination of this Agreement will be permitted after issuance of Licensor's invoice.

e. Termination for a Material Breach. Each party shall notify the breaching party of a material breach of this Agreement in writing with a detailed description of the breach. The breaching party shall have ten (10) days from the receipt of such notice to use all reasonable means to cure this alleged material breach and to notify the non-breaching party in writing that a cure has been effected. If the material breach is not cured within the ten (10)-day period, the non-breaching party shall have the right to terminate the Agreement with a written notice, however, if such material breach would concern or relate merely a certain Participating Institution or Participating Institutions, AIPP has the right to terminate the Agreement only partially with respect to this or these Participating Institutions. Termination of this Agreement is effective immediately by the date of delivery of such a notice. The obligation of the parties to also remedy any other breach shall not be affected by this provision.

f. Refunds. In the event of early termination due to a breach by AIPP and pursuant to this Agreement, and except for termination for a material breach by the Licensee, the Licensee shall be entitled to a refund of any Fee or pro-rata portion thereof paid by the Licensee for any remaining period of this Agreement calculated from the date of termination.

g. Changes to Licensed Content. AIPP may change the selection of the Licensed Content from time to time, with notice to Licensee. If a journal is discontinued, the Fees may be adjusted pursuant to the mutual consent of the parties, subject to the Licensee's right to access any Licensed Content as set forth in Appendices AB &D.

7. REPRESENTATIONS AND DISCLAIMERS; CONSEQUENTIAL DAMAGES

a. Warranty and Disclaimers. If applicable, Licensee represents that it has the authority to act for the benefit of the Participating Institutions in entering into this Agreement. AIPP represents and warrants that it is authorized to grant Licensee, the Participating Institutions (if applicable), and its/their Authorized Users the rights granted herein. Except as set forth in the preceding sentence, the Platform and the Licensed Content are provided on an "as-is" and "as-available" basis. AIPP makes no warranty or representation of any kind with respect to the Licensed Content or the Platform, express or implied, including its quality, originality, availability, accessibility, accuracy, performance, non-infringement, merchantability or fitness for a particular purpose, or

that access to the Platform and the Licensed Content will achieve a particular result, or such access will be uninterrupted or error-free.

b. Consequential Damages. Neither party shall be liable for exemplary, special, indirect, incidental, consequential or other similar types of damages, arising out of, relating to or connected with this Agreement, even if a party is advised or aware of the possibility of such damages. The foregoing limitations do not apply to any breach of Sections 3, 5.

c. AIPP shall indemnify and hold harmless the Licensee, the Participating Institutions and Authorized Users for any losses, claims, damages, awards, penalties, or injuries incurred, including reasonable attorney's fees, that arise from any third party claim that alleges copyright infringement or other intellectual property infringement arising from the authorized use, meaning the use of the Licensed Content by the Licensee or any Participating Institution or any Authorized User in accordance with this Agreement. NO LIMITATION OF LIABILITY SET FORTH ELSEWHERE IN THIS AGREEMENT IS APPLICABLE TO THIS INDEMNIFICATION. This Section 7 shall survive the termination of this Agreement.

d. Licensee agrees to indemnify, defend, and hold AIPP harmless from and against any and all third party claims, liabilities, demands, damages, litigation, expenses (including attorneys' fees and experts' costs, penalties and fees, if any, for the enforcement of this Agreement and otherwise for such party's defense of indemnified claims), losses and threatened losses arising from, or in connection with, breach of this Agreement. .

8. GOVERNING LAW AND ARBITRATION

a. All differences and disputes that may arise out of this Agreement or in connection therewith are to be settled by direct discussions between the parties.

b. In the event of any dispute or controversy arising out of or relating to this Agreement, the parties agree to exercise good faith efforts to resolve the dispute as soon as possible. In the event that the parties cannot, by exercise of their good faith efforts, resolve the dispute, they shall submit the dispute to informal mediation, as further described below in this paragraph. The parties shall continue to perform their respective obligations under this Agreement that are not affected by the dispute. The party invoking mediation shall give to the other party written notice of its decision to seek informal mediation, and the notice must include a description of the issues subject to the dispute and a proposed resolution thereof. Designated representatives of both parties shall attempt to resolve the dispute within five (5) working days after such notice.

If those designated representatives cannot resolve the dispute, the parties shall meet at a mutually agreeable location and describe the dispute and their respective proposals for resolution to responsible executives of the disputing parties, who shall act in good faith to resolve the dispute.

c. If the dispute is not resolved within thirty (30) calendar days of the meeting among the parties' executives, either party may pursue a legal action in court. The exclusive jurisdiction and venue for any and all actions arising out of or brought under the Agreement is in a state court of competent jurisdiction, situated in New York, USA. During such court action, the parties shall continue to perform their respective obligations under this Agreement that are not affected by the dispute.

9. DATA PRIVACY & SECURITY

a. AIPP will use reasonable and appropriate technical, organizational, and administrative security measures designed to prevent loss, misuse, corruption, or disclosure of and/or unauthorized access, alteration or destruction to personal data held in its custody under this Agreement. Both the Licensee and AIPP together and individually acknowledge and agree that the Licensee should not transfer or provide any personally identifiable information (personal data) of the Authorized Users to AIPP. Access to the Licensed Content is primarily granted via IP Addresses which prevent any identification of the Authorized User.

b. Data Protection. For the purpose of this Agreement, Data Protection Law shall mean the General Data Protection Regulation (EU) 2016/679 (the "Regulation") and the European Privacy and Electronic Communications Directive (Directive 2002/58/EC), as amended or replaced from time to time, and the terms "personal data", "processing", "processor", "controller", "personal data breach", "data subject" and "supervisory authority" shall all have the meanings ascribed to them under the applicable Data Protection Law.

If any personal data is processed under this Agreement by either party, the parties agree that each party shall act as a data controller for the purposes of Data Protection Law, unless such arrangement would be contrary to the Data Protection Law. Each party shall (i) only process personal data in compliance with and shall not cause itself or the other party to be in breach of Data Protection Law and (ii) act reasonably in providing such information and assistance as the other party may reasonably request to enable it to comply with its obligations under Data Protection Law.

Each party will notify the other party without undue delay if it becomes aware of a personal data breach relating to the processing of personal data in connection with this Agreement.

If either party receives any communication from any supervisory authority relating to the processing of personal data in connection with this Agreement, it shall (i) provide the other party with reasonable details of such communication, and (ii) act reasonably in co-operating with the other party in respect of any response to the same.

10. GENERAL

a. Integration. This Agreement (consisting of the Custom Terms and the attached appendices, if any) contains the entire understanding of the parties regarding the subject matter of this Agreement, and supersedes all prior and contemporaneous agreements and understandings between the parties regarding its subject matter. A purchase order will not supersede any term in the Standard Terms and Conditions without a written amendment.

b. Waiver and Modification. Unless noted otherwise in the Custom Terms, each term of these Standard Terms and Conditions may only be modified, supplemented, amended or waived in a writing signed by both parties. A waiver of a breach shall not constitute a waiver of any other breach. The failure of either party at any time to enforce any provisions of this Agreement or to exercise any right or remedy shall not be construed to be a waiver of such provisions or of such rights or remedy or the right of that party thereafter to enforce each and every provision, right or remedy.

c. Force Majeure. Neither party will be responsible for any failure to perform its obligations under this Agreement due to causes beyond its reasonable control, including, but not limited to, acts of God, war, fire, floods, acts of civil or military authorities, strikes, work stoppages, civil unrest, power outages or disruption of transport or shipping, or riot.

d. Notices. All notices, reports and statements to be given shall be given or made: (a) by FedEx, UPS or any overnight delivery service providing notice of receipt; or (b) by email with confirmation of receipt, including confirmation sent automatically when an email is read by the recipient. Notices to the parties shall be sent to the physical or email addresses set forth in the Custom Terms, unless notification of a change is given in writing. The date of receipt evidenced by the tracking information or email confirmations shall be deemed the date of receipt.

e. Severability. The parties agree that if any part, term, or provision of this Agreement shall be found illegal or in conflict with any valid controlling law, the validity of the remaining provisions of this Agreement shall not be affected thereby.

f. Assignment. The Licensee shall not assign or transfer its rights under this Agreement without the prior written consent of AIPP. If any assignment or transfer of rights by Licensee results in; (i) additional authorized locations other than those set forth in **Appendix A**, or (ii) if as a result of the assignment, additional Participating Institutions require access to the Licensed Content. This shall be subject to a separate agreement of the parties, or an amendment of this Agreement. Access for the additional locations or Participating Institutions will not commence until this separate agreement, or amendment of this Agreement, is executed. Unless such action would contradict with the applicable public procurement law, AIPP may assign this Agreement in the event of any merger, reverse merger, sale, acquisition, public offering or private placement resulting in a change of ownership or control of AIPP while the same terms and conditions of the Agreement shall apply. AIPP will inform the Licensee on plans of such assignments at least 30 days in advance and provide a time of at least 14 days to evaluate such action if required under the applicable public procurement law. This Agreement shall be binding upon and inure to the benefit of the parties hereto, their successors and permitted assigns.

g. No Third-Party Beneficiary. The parties do not intend, and the Agreement shall not be deemed, to create any third-party beneficiary rights for any entity or person.

h. Counterparts. This Agreement may be executed in counterparts, both of which taken together will constitute one and the same document. Electronic, facsimile or .pdf file signatures will have the same effect as originals. The parties agree that electronically signed versions of this originally executed Agreement are acceptable in lieu of printed signed copies and are to be given full force and effect under the law and each party declares that the electronic execution is valid and effective in the jurisdiction the party executes the Agreement.

i. Order of Precedence. To the extent Licensee provides any purchase order, procurement form, or rider that contains terms that conflict or are inconsistent with the terms in this Agreement, the terms in this Agreement shall govern and be given precedence. Any language in any purchase order, procurement form, rider, or any other writing that purports to change the terms of this Section 10(i) without specifically referencing this section of this Agreement is inoperative.

j. Survival. Sections 1(b)(c)(d), 3, 4 (b), 5, 6, 8 - 11 and any other provisions that are intended to survive, shall survive the expiration or termination of this Agreement.

The parties have executed this Agreement (consisting of Part 1- Custom Terms, Part 2 – Standard Terms and Conditions, and any appendices attached) as of the Effective Date.

APPENDIX C

Text and Data Mining Permission

Text and Data Mining Fee	\$
Authorized Institution(s)	
Authorized Window	Date: Time:
Approved API Service(s)	
Preparation of Data by AIPP (optional)	\$

AIPP authorizes the above Authorized Institution to conduct text and data mining solely for academic, research or for internal purposes. The text and data mining must be performed using an AIPP-approved API service, and the Authorized Institution must abide by any limits on load rates and download rates conveyed to Authorized Institution from time to time. In no event will the Authorized Institution or any of its Authorized Users use or share the Licensed Content from the text and data mining in a manner that competes with the Platform or the Licensed Content, for the use or benefit of any third party, or otherwise harm the economic interest of AIPP, including, without limitation, by posting the Licensed Content on the Internet for the public to access, regardless of whether the results can be reconstructed to its original, human readable form. For the sake of clarity, Authorized Institution shall not share the Licensed Content from the text and data mining with any third party, including, without limitation, Licensee or Participating Institutions (if they are not also the Authorized Institution).

Licensee will make reasonable efforts to inform its Authorized Users about the appropriate use and sharing of the Licensed Content from the text and data mining. In no way should this sharing be used in a manner that competes with the Platform or the Licensed Content, by posting an unreasonable amount of the Licensed Content on the Internet for the public to access. Authorized Users may only use the Licensed Content to perform and engage in text and/or data mining activities for academic research, scholarship, and other educational purposes and may utilize and share the findings of text and/or data mining, including reasonable portions of the text, data, figures, scholarly content, and tables, in their scholarly work and make the findings available for use by others, so long as it does not create a product for use by third parties that would substitute for the Licensed Materials.

Text and data mining may be performed on the original Licensed Content or on data extracted from the Licensed Content available on the Platform. The Licensed Content or extracted TDM Output may only be stored and analyzed within the Authorized Institution's secure network that is not accessible by any unauthorized third parties. It is mutually understood that appropriate research collaborators on projects involving TDM of the Licensed Content who are not Authorized Users under this Agreement may access

and use the model, raw data, and TDM Output specifically related to that project, but not have direct access to, or perform the retrieval on, the Licensed Content themselves.

It is mutually understood that the “TDM Output” (the result of any Text and Data Mining activity or operation, capable of fixation, reproduction and/or communication in any form) provided or generated under this Agreement may be retained by Authorized Users throughout the full lifecycle of the TDM project (including long term use and preservation), including for publication, and as necessary for replication, validation, and preservation of research results. All TDM Output pursuant to this Appendix will continue to be subject to the terms and conditions of this Agreement and any Amendment to this Agreement. Users may include TDM Output as part of original works of scholarship, e.g. articles that describe, analyze, and interpret research; presentations at academic conferences; datasets shared for validation and reproducibility; and inclusion in an academic thesis.

The text and data mining may only be performed during the Authorized Window set forth above. During the Authorized Window, if AIPP reasonably determines that the text and data mining is causing an unreasonable burden on AIPP’s network or substantially interferes with other users’ access to the Platform and the Licensed Content, Authorized Institution will temporarily suspend such activity upon AIPP’s request, and only resume once AIPP notifies the Authorized Institution to do so.

After termination of the Agreement, all text and data mining results provided pursuant to this Appendix will continue to be subject to all applicable sections of the Agreement governing content usage and restrictions.

APPENDIX D

Read and Publish Privileges

Article Cap	2026: 110 articles 2027: 114 articles 2028: 119 articles
Fees for Articles over the Article Cap ("Overage Fee")	██████ per article
Eligible Titles	See Appendix B

1. Publishing Privilege.
 - a. AIPP shall publish peer-reviewed material (as defined in this Appendix G) which are suitable for its journals and conforming to AIPP's editorial standards, up to and including the Article Cap, so that such articles and materials are available without charge to users of AIPP's services, under the following conditions:
 - i. The Participating Institution (which must be listed in **Appendix A**) has duly licensed and fully paid for a journal denoted as eligible for publishing in **Appendix B**;
 - ii. The submitting, corresponding author is an Authorized User affiliated with an Authorized Location, as defined in the Agreement ("Eligible Author");
 - iii. The author correctly identifies himself / herself as an Eligible Author under this agreement by selecting his / her institutional affiliation during submission;
 - iv. The article is a "primary research article", "review article", "perspective article", or "tutorial article."
 - b. If the affiliation of a submitting, corresponding, Eligible Author, changes during the publication process to an affiliation not listed in **Appendix A**, the article will not be counted under this Agreement; if the Licensee finds such an article is counted under the Agreement, the Licensee will receive a credit against the allotment for the year in which the article was accepted.
 - i. The acceptance date of the article falls within the Term of the Agreement; and
 - ii. The submitting, corresponding author assigns a CC BY license to AIPP.

c. If these conditions are not met, the article will be published either as a restricted-access publication available only to subscribers / licensees of AIPP's program, or as an Open Access (OA) publication if the author chooses to pay the requisite Article Publishing Charges (APC) as posted for each journal on AIPP's website.

d. In the event that an article was counted under the agreement with a stricter CC license assigned: upon request from the author the CC license will be changed to CC BY.

e. If the Eligible Corresponding Author was not identified as eligible due to Publisher's failure and then Publisher publishes the article under a traditional subscription only format, Publisher shall be responsible to convert the article promptly so that it is published open access provided the author completes the workflow and signs the appropriate agreement.

f. For the avoidance of doubt, if the Effective Date is later than January 1, 2026, all eligible articles (i.e., articles meeting the conditions set forth in this Appendix) that were published between January 1, 2026 and the Effective Date will be retroactively converted to Open Access in accordance with Section 6a of the Agreement.

2. Overage.

a. For all articles above the Article Cap, at a per-article cost equal to the Overage Fee, AIPP shall publish these articles as defined in Section 1 of this Appendix F without charge to subscribers to AIPP's services. If the fee is not paid and / or the conditions above are not met, the article will be published either as a restricted-access publication available only to subscribers / licensees of AIPP's program, or as an OA publication if the author chooses to pay the requisite APC as posted for each journal on AIPP's website.

All rights and privileges granted to Licensee under this Appendix shall terminate with the termination of the Agreement.

3. OA Reporting

Licensee can download metadata from the Research Dashboard, in computer readable format, such as:

- Institution member's name
- article's title;
- DOI;

- Currency
- Author's Name;
- Author's email;
- Author's Orcid ID (when provided);
- CC license assigned

The Publisher shall deliver article metadata to Crossref. The following fields of Crossref's format shall be included:

- publisher title;
- DOI member type accepted;
- container-title volume;
- page;
- article-number published-print published-online ISSN;
- author (incl. ORCID if applicable and affiliation).
